

## **David Killeen - background summary**

### **To support my nomination for a position on the Management Committee 2021/22**

#### **Professional**

- Chartered Accountant
- International Oil Company General Manager level in various positions in New Zealand, UK and Australia
- Management Consultant
- Created and owned the largest BMW Motorcycle Dealership in Australia.

#### **Maleny Golf Club**

- I became involved in 2011 providing financial analysis for the Business Plan that secured Council funding of \$900000 for the 18 hole course
- Treasurer 2012 to 2016 establishing most of the processes and systems still in use today. Oversaw the financial management of the construction of the first 9 holes
- MGC Committee Member 2017 to 2019 overseeing the financial management of the expansion of the golf course and related facilities first to 12 holes. This included managing a successful application for grant funds from the Queensland Government of \$100000. I also assisted 2 Treasurers during this period when required.
- Project involvement in expanding the course to 18 holes including managing funding, negotiations with Sunshine Coast Regional Council and grant funding from the Federal Department of Sports and Recreation \$200000 which, thankfully, was successful. Had the grant funding not been received we would have remained a 12 hole course
- Shop Volunteer 2017 to 2020.

#### **Personal statement of intent to support my nomination**

The Club has grown considerably, particularly in the last 2 years. I feel it's important to remember the colossal effort by many volunteers in various capacities over the past few years. We would not have achieved so much without them, whether on the course, in the shop or on the Committee; all are volunteers.

I would like to see stable and professional management of our Club. I believe we have the right employees now to achieve this and, by nominating for the Committee, I would like to play my part in ensuring this continues to occur. All the signs are good (COVID aside) and our future is bright. I want to add balance to the Committee based on my experience with the Club over the years as well as from my professional background.

Fellow members of our fine Golf Club, thank you for your support.

David
