

# Robin Hay

My association with Maleny dates back 50(+) years with connections to the Maleny Golf Club from its very beginnings back in 1998 when the idea of a golf course was first raised.

Beyond simply being an avid golfer, over the years I have been a member of many golf clubs, serving on committees and filling leadership roles. A few examples follow –

- Captain of the Capricorn Golf Club and chair of the Match Committee
- Caloundra Golf Club Match Committee member – 3 years
- Consulted to the Board of the Stockley Park Golf Club in London, UK to open competition golf for women

Here at Maleny, apart for one year due to personal reasons, since our first nine holes were opened in 2015, I have been either the Captain and/or on the Match Committee. In my role as Captain, I have also had considerable experience on the Management Committee, contributing to its broader deliberations.

Additionally, throughout this time I have willingly volunteered in the golf shop, assisted the House Committee with catering and from time to time helped on the golf course with weed management and turfing new greens when special callouts for help have been made.

During one of my tenures as Captain I completed Stage 1 of a Rules Accreditation course to better equip myself to carry out the responsibilities of the role.

With my experience I feel I have a lot to offer and am keen to remain involved, contribute and commit to a team that I hope will be able to sustain the growth and success the golf club has achieved over the past 12 months.

Finally, as the only female nominee I feel it is very important for gender considerations that the women members of our club have a voice on the Management Committee, a responsibility that I will enthusiastically take up if elected.
